

# Evolution of C9 copy number and genomic organization across Squamata

Branch (aBSREL)  
— aBSREL positive  
— not significant

Gene (box fill)  
grey DAB2 / FYB1 (flanking)  
teal C9A  
green C9B  
blue C9C  
red pseudogene (stops)

ORF / outline  
grey functional  
grey dotted remnant (dotted)  
orange C9B relaxed (orange)

Events  
black diamond duplication (+C9B/+C9C)  
red cross loss / pseudogenisation
